Henderson's "Pot-Grown" STRAWBERRY PLANTS.

(Supplied on and after July 25th.)

Set out before September 15th,

WILL YIELD A FULL CROP

—OF—

Luscious Strawberries

NEXT SPRING.

We grow our strawberry plants in pots, they are much superior to the ordinary ground layers usually sold, as there is no loss of fine roots in taking them up, and they can be shipped safely to distant parts of the United States and Canada, and be transplanted at any season, and it scarcely checks their growth; consequently, if planted before the 15th of Septemher, they will grow into large plants and *bear a full crop of berries next spring*, being a clear gain of a year over "ground layers," which is certainly worth more than the slight difference in first cost.

25 of one variety supplied at 100 rate, 250 at 1,000 rate; no charge for packing nor delivery to express office in New York. If small quantities are wanted by mail, postage must be added to above prices, at the rate of 50c. per 100 plants.

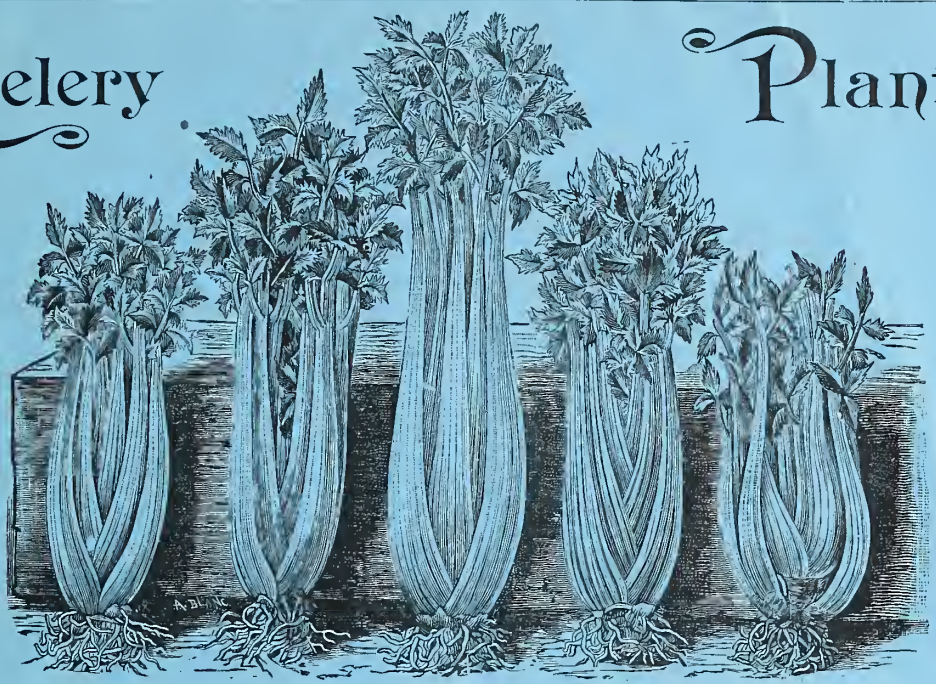
Celery Plants.



HALF DWARF. WHITE PLUME. GIANT SOLID. GOLDEN DWARF. BOSTON MARKET.

CELERY PLANTS.

(Supplied between June 15th and August 25th.)

We are unquestionably the largest raisers of celery plants in the world, and our methods of culture are such that we invariably have the plants in the finest possible condition.

We draw special attention to our Transplanted Celery Plants. The result of transplanting is seen in the dense mass of fibrous roots that these plants possess, and on this account with ordinary care they are much easier to transplant and are more certain to do well.

☞ **No charge for packing nor delivery to express office in New York.** The safe arrival of all vegetable plants is guaranteed if sent by express, and the time of transit does not exceed three days. Vegetable plants by mail are entirely at the purchaser's risk, and postage must be added at the rate of 15c. per 100 plants.
